MBAD 6152-U90 Financial Management
Tuesday and Thursday evenings – 5:30 – 9:15PM
May 24 – June 28, 2015
Summer 1 – 2016
Center City Room 901

Professor: Patrick J. Bobbins, MBA
Work: 704-409-2593
Email: pjbobbin@uncc.edu (educational)
Email: pbobbins@carrollfinancial.com (professional)

Office Hours: Office hours are by appointment only. I would encourage meeting before or after class, or other times/locations which are mutually available close to Uptown and SouthPark areas of Charlotte.

Eugene F. Brigham University of Florida
Michael C. Ehrhardt University of Tennessee
ISBN-10: 1111972206
*** (Feel free to use a 13th edition or lower if it is cheaper, content locations and problem sets could possibly be different) ***

Other: I will distribute cases/readings in class to further aid in our discussions and topics.

Calculator: TI BAII Plus or Hewlett Packard 12C or TI 83/84+ Graphing. Note only the TI BAII Plus and Hewlett Packard 12C are allowed for the CFA exam. If using the Hewlett Packard 12C; you are responsible for learning keystrokes.

Objectives: The goal of the course is to develop the skill set necessary to make financial management decisions. Our focus will be on project/corporate valuation, cash flow analysis, stock/bond valuation, portfolio management, international finance, capital structure, and corporate governance.

Style: The pace of the class will be quick given the shortened nature of a summer session. We will spend time in class presenting problem solving skills and working through examples. We will not be going through every detail of the book. Please use the text as a helpful guide to dig deeper or aid in problem solving. Overall the class will have an approach similar to the CFA Level 1 and 2 where problem sets will be singular and multi-part. Heightened Class interaction is critical to the educational experience. There will be several speakers joining us this semester to help shed additional light on topics.
Grading: Grades will consist of one online quiz and two exams. The final exam is cumulative. Should you miss the midterm; the final will serve as both exam grades. Exams will be both multiple choice and short answer. You are allowed a one page front/back formula sheet.

Scale: 90-100 A
80-89  B
70-79  C... etc...
