Class Meetings

Tuesdays and Thursdays, 8:30am-9:45am, Friday 142

Instructor: Faith R. Neale, Ph.D.

Phone: 687-7636
Office: 351A Friday Building
Office Hours: Tuesdays 10:00 – 12 noon
           Wednesdays 1:00 – 2:00 pm and by appointment

Course Description

This course involves an analysis of the needs of business and individuals for property and casualty insurance and the nature of coverage available. This course includes an examination of property and casualty insurance products with an emphasis on contract language, case law, the use of contracts, the type of coverage afforded, and underwriting procedures.

Student Conduct

All UNC Charlotte students have the responsibility to be familiar with and comply with the requirements of the UNC Charlotte Codes of Student Responsibility and Academic Integrity (noted above). The Code of Student Responsibility outlines the rules for student conduct in the classroom and toward all others at UNC Charlotte. The Code of Academic Integrity forbids cheating, fabrication or falsification of information, multiple submission of academic work, plagiarism, abuse of academic materials (such as Library books on reserve), and complicity in academic dishonesty (helping others to violate the Code). Any further specific requirements or permission regarding academic integrity in this course will be stated by the instructor, and are also binding on the students in this course. Students who violate the Code can be punished to the extent of being permanently expelled from UNC Charlotte and having this fact recorded on their official transcripts. The normal penalty is zero credit on the work involving dishonesty and further substantial reduction of the course grade. In almost all cases, the course grade is reduced to "F." If you do not have a copy of the Code, you can obtain one from the Dean of Students Office or access it online at the links provided above. Standards of academic integrity will be enforced in this course. Students are expected to report cases of academic dishonesty they become aware of to the course instructor who is responsible for dealing with them.

Course Objectives

1. Understand the environment, regulations, and restrictions in which property and casualty insurers operate.
2. Understand the main functions of an insurer and the interaction between functions.
3. Examine the lines of insurance available from property and casualty insurers and the limitations of those lines.
4. Interpret information contained in insurer financial statements and explore how this information is used.
Required Text

Additional Resources

The Institutes has additional resources for purchase including; CPCU 520 Course Guide, Review Notes, Flash Cards, Instructor Videos and Online Practice Exams. For more information go to https://www.theinstitutes.org/hf.php?page=webops.matiform&P_EXAM=520&P_SERIES=0119

Grading

The course grade will be based on three examinations (70% of the course grade), a project (20%) and assignments and quizzes (10%). Each of these will be graded on a scale of 1 through 100. Exams 1 and 2 are worth 20% each of your course grade. The final exam is worth 30% of your course grade and will be administered according to the schedule outlined in the UNCC Final Exam Schedule. Students must calculate their own course grade based on the above allocations. The grade estimated in Canvas most likely is wrong. Your final grade will be based on the following scale:

90 and above = A, 80 to 89 = B, 70 to 79 = C, 60 to 69 = D, less than 60 = F

Exams

Make-up exams will not be given. If an exam is the first exam missed and the absence is excused based on university guidelines, then the final exam will account for 50% of your course grade. If the absence is unexcused then you will be given a zero for that exam. Excluding emergencies, an absence is automatically considered unexcused if advance notice, at least 24 hours prior to the exam, of the absence is not provided to the instructor. All subsequent missed exams will result in a zero for that exam.

Class Participation

Class participation includes attendance, discussion, interactive activities, and meeting the general requirements of the course. Additional extra credit points from class participation may be earned at the conclusion of the course by actively participating in class such as answering and asking questions throughout the semester. Extra credit will not be awarded if any of the following occur: missing class, entering class late, using a laptop during class for anything other than this class’s work, using a cell phone or text messaging during class. Other discourteous or otherwise unprofessional behavior, such as talking while material is being presented, will automatically result in loss of extra credit class participation points.

Assignments and Quizzes

In-class and out of class assignments and quizzes will be administered throughout the course. Students must come to class or get assignments from classmates if an assignment is discussed during class. Assignments and quizzes, especially in-class, may not be posted or announced on Canvas. In-class assignments and quizzes may not be made up even if the class absence is excused. All students are assumed to exhibit a college level understanding of written English and grammar and written assignments are graded with this in mind. Students must take care to avoid misspellings and grammatical errors to avoid a loss of points. Students needing assistance with writing and presentations should consult the Writing Resource Center at http://www.uncc.edu/writing/wrcindex.html.

Attendance

Roll will be taken at the beginning of class. This is for consideration of extra credit participation points only.
Guest Speakers and Student Presentations

Class attendance is required at all times but additional penalties will be assessed if a student arrives late or misses a class when a guest speaker or students are presenting. Advance notification will be given when a speaker is scheduled or students are presenting. If you are absent during one of these classes, 2 points will be deducted from your final course grade. If you arrive late then 1 points will be deducted from your final course grade for each presentation you are late for that day. Therefore, if you are arrive after the second presentation has started 2 points will be deducted from your final course grade.

Class Policies and Information

Special accommodations: Students needing special accommodations should inform the instructor of the type of accommodation needed during the first week of class.

E-mail: A great deal of communication is done by Canvas and e-mail. Students are responsible for checking Canvas and their UNCC e-mail account throughout the semester. Failure to check this account does not excuse the student from any missed assignments, classes, quizzes, etc.... All e-mails to the instructor must be written in a professional manner.

Recording: Electronic video and/or audio recording is not permitted during class unless the student obtains permission from the instructor. If permission is granted, any distribution of the recording is prohibited. Students with specific electronic recording accommodations authorized by the Office of Disability Services do not require instructor permission; however, the instructor must be notified of any such accommodation prior to recording. Any distribution of such recordings is prohibited.

Photography: Still photography is strictly prohibited in class at all times. Violation of this policy may be considered a violation of the Student Conduct Codes discussed above.

Cell phones: The use of cell phones or other communication devices is disruptive and is therefore prohibited during class. Except in emergencies, those using such devices must leave the classroom for the remainder of the class period. Cell phones may not be on during class or exams. This includes ringing, text messaging, internet, video, camera, and silent modes. Violations of this policy will automatically result in loss of outstanding class participation points stated above and additional violations will result in 2 points deducted from your final course grade for each additional violation. In addition, cell phones or any other smart devices may not be in view of, or in contact with, any student during exams. Violations of this policy will result in a zero on the exam. In the case of family emergencies accommodations may be made with the instructor.

Headphones and ear buds: Headphones and earbuds may not be worn during class. A violation of this policy will result in the student considered absent during the class the violation occurred and loss of extra credit participation points. Further violations will result in increased penalties up to and including loss of points on the final course grade.

Class materials and notes: Additional materials may be provided as needed by the instructor throughout the course. If a student misses a class when this material is provided it is the student’s responsibility to arrange to obtain this material from another student or from the instructor during the instructor’s office hours. If you miss a day of class, lecture notes and materials should be obtained from another student.
Website: The outlines for the class lectures as well as other class materials including announcements will be posted on Canvas or e-mailed to the student. It is the student’s responsibility to check the Canvas website and their e-mails frequently to keep updated on the class. Students are encouraged to use the Canvas app on their smart phones to have timely access to announcements and other notifications.

Exams: Exams generally include multiple-choice and short answer questions requiring scantron answer sheets. Students are responsible for providing their own #2 pencils and calculators, if needed, on the day of exams.

Laptops: Laptops may be used during class for class purposes only and are permitted at the instructor’s discretion. Those using laptops are to sit on the back row of the classroom. If the laptop becomes a distraction the student will be required to turn it off and put it away immediately upon the instructor’s request. Failure to do so will result in removal from class that day. If laptop use continues to be a distraction, the instructor may prohibit their use for the remainder of the semester.

Vericite As a condition of taking this course, papers and assignments may be subject to submission for textual similarity review to VeriCite for the detection of plagiarism. All submitted papers will be included as source documents in the VeriCite reference database solely for the purpose of detecting plagiarism of such papers. No student papers will be submitted to VeriCite without a student’s written consent and permission. If a student does not provide such written consent and permission, the instructor may: (i) require a short reflection paper on research methodology; (ii) require a draft bibliography prior to submission of the final paper; or (iii) require the cover page and first cited page of each reference source to be photocopied and submitted with the final paper.

Excused Absences In order for an absence from class to be considered as excused by the instructor, students must make the request, in writing, at least 48 hours prior to the missed class. The determination of whether a class is excused is at the sole discretion of the instructor.

Extra Credit Extra credit offered for extracurricular activities such as attendance at the Career Fair or any other university or GIS sponsored event is contingent on class attendance the day of class. In other words, you must attend class in its entirety the day of class in order to earn extra credit for an extracurricular event occurring the same day.

Final Exam The final exam is cumulative. Students may bring handwritten notes, in your own handwriting, to the final. The notes must be your own and written by you. Violations of this policy will result in a 0 on the final exam and possible referral for violation of the Code of Student Academic Integrity. Students are encouraged to take notes throughout the semester.

Course Structure Students are required to read the chapter before class. Quizzes comprised of questions from the readings will be administered at the beginning of class.

Study Recommendations Students should review posted slides and then read assignments prior to the class they are covered to obtain the most information from the class lecture and discussion. Students as encouraged to take handwritten notes during class and transfer them to computer after class to enhance retention of material.

Optimal Study Habits

1. Read assignment, outline and take notes of questions by hand. Use power points as a guide to covered material.
2. Take handwritten notes in class filling in outline and answering questions in class. Highlight terms and areas that I emphasize.
3. Transfer handwritten notes to laptop if needed the day of, or by the following day.
4. Review notes every day including previous notes. By exam time you should only need to review material and can concentrate on problem areas.
5. Some students learn best if they record their notes and listen back to them. Some students are visually-oriented and should use flowcharts, graphs, highlighters, etc... Regardless, the process of transferring this information into your preferred learning style will help you retain this material.

The Belk College of Business strives to create an inclusive academic climate in which the dignity of all individuals is respected and maintained. Therefore, we celebrate diversity that includes, but is not limited to ability/disability, age, culture, ethnicity, gender, language, race, religion, sexual orientation, and socio-economic status.

***Please check the University website at https://ninercentral.uncc.edu/courses-registration/exam-schedules for updates on the final exam schedule. Many times changes to this schedule are made very late in the semester. While I will try to keep you updated on any changes it is your responsibility to check the schedule immediately prior to final exam week to verify the date and time of your exam.

This schedule is tentative and subject to change.
