

INFO 3233-001 Fall 2018
Data and Information Management

Instructor: Dr. Antonis Stylianou	Office: 266B Friday	Phone: 704.687.7605
Email: astylianou@uncc.edu – this is the preferred mode of communication. Please allow up to 24 hours turn-around time for questions during the workweek. Weekend questions may take longer.		
Office Hours: M 1:00-2:30 W 8:30-10:00 and by appointment - I will be physically available in my office during these times and will also be available online via WebEx.		
Class Hours: 001 – TR 8:30-9:45 002 – TR 10:00-11:15		
Venue: Friday 132		
Teaching Assistant:		
Email:		
Office Hours:		

Syllabus

This syllabus contains the policies and expectations I have established for this course. Please read the entire syllabus carefully before continuing in this course. These policies and expectations are intended to create a productive learning atmosphere for all students. Unless you are prepared to abide by these policies and expectations, you risk losing the opportunity to participate further in the course.

The standards and requirements set forth in this syllabus may be modified at any time by the instructor. Notice of such changes will be by announcement in class and/or by changes to this syllabus posted on the course Canvas website.

Catalog Description

A study of and implementation of databases for business applications. Exploration of basic concepts of design and the use of SQL to create and manipulate corporate databases.

Pre- or Corequisite(s): INFO 3130 with grade of C or above; and Junior standing or permission of department.

Course Learning Objectives

1. Use database terminology appropriately to communicate with business users.
2. Apply data modeling principles to design effective and efficient relational databases.
3. Implement a relational database based on a design.
4. Use SQL to create, query and update databases.

Course Materials

- **Textbook:** Coronel, C., Morris, S., and Rob, P. Database Systems: Design, Implementation, and Management, 12th Edition, Course Technology, ISBN # 9781337443296 ****Note: The ISBN is for a loose leaf bundle containing only the chapters we will be using and is available at the campus**

bookstore. Alternatively, you may purchase the complete 10th Edition of the textbook from an online source. The editions are virtually the same. **** If you choose to purchase an older edition, you will need to copy the end-of-chapter problems from another student as some will be different. ****

- **Textbook student website:** contains video tutorials, datasets, interactive quizzes, solutions to select problems, PowerPoint presentations, and the textbook Appendices.
- **Other readings and helpful documents will be posted on Canvas.**

Grading

Component	Percentage
Exams (3@22.5%)	67.5%
Project	14%
Assignments (2@3%+5%)	8%
Quizzes (5@0.5%)	2.5%
Chapter Problems & Homework	5%
Attendance & Participation	3%
Total	100%

The final letter grade will be calculated based on the following scale:

A: 90% and above; B: 80-89.9%; C: 70-79.9%; D: 60-69.9%; F: Below 60%.

Grades will be posted on Canvas along with the feedback. You can set your Canvas preferences to receive notification when grades are available.

Exams Four equally weighted exams will be given in this course: three during the semester plus a comprehensive final. However, only three of the exams will be counted towards the grade. Students may take all four exams and drop the one with the lowest grade.

Projects One assignment will be completed individually. A second assignment and a project will be completed by teams of students and turned in for a grade. A list of group members must be submitted via email copied to all group members.

All members in a group are expected to contribute. If a group member does not contribute, the rest of the members may, after a consensus agreement and the consent of the instructor, ask him/her to leave the group. The maximum project grade for students not belonging to a group will be a B.

Quizzes Five quizzes with ten multiple-choice and true-false questions each are assigned on Canvas. These quizzes are associated with Chapters 2-6 and are generally due at the beginning of the session when each chapter is covered. Students will have three attempts at each quiz, with the highest score kept.

Homework Students will complete several small homework problems associated with each chapter. In general, these problems are due on the session after each chapter is covered. Students are required to submit in Canvas either an electronic file containing their work or a snapshot of their handwritten work. **To receive credit, each problem must be clearly**

identified and the work must be legible! Credit will be given for a complete attempt for each problem assigned, regardless of whether the answer is completely correct or not.

Attendance and Participation

Attendance and participation are required. Attendance may be taken at any point during the class (beginning, middle, and end) and may even be checked multiple times. Tardiness or early departure are disruptive and are, of course, discouraged and will be reflected in the attendance grade as absences. Absence from a class session also implies zero participation for that session.

Absences from class may be excused by the instructor for such reasons as personal illness, religious holidays, or participating as an authorized University representative in an out-of-town event. Whenever possible, students are expected to seek the permission of the instructor prior to absences.

Every student is expected to study the textbook and other posted materials (notes, solutions, etc.) **prior to each class session**. Students must be prepared to answer questions on the "current" topic. Discussion questions and quizzes may be used to evaluate preparation/participation and the results will be combined with the attendance record.

Students will be held responsible for any material covered, announcements made, assignments passed out, and any other type of work that they may miss during any absence from class.

Other Course Policies

Exams

Make-up exams will NOT be given except in cases of serious medical emergencies as evidenced by a written doctor's excuse. Permission must be obtained from the professor prior to the scheduled exam time. Students missing an exam with an approved excuse will be allowed to make up the exam with the professor's approval during the final exam period. There will be no make-up for the comprehensive final.

Exam reviews will be available during office hours or by appointment for one week after exam grades are posted.

Exams are a form of intellectual property belonging to those who create them (your professors). Consequently, exams must remain in my possession or under my control at all times. This means that exams may not be taken out of the room or copied. Students are encouraged to review their exams during office hours or by appointment. However, failure to return an exam after taking or reviewing it or removing an exam from my presence at any time or copying an exam or any portion of it will be considered theft of intellectual property. Such action will result in an exam grade of zero and may warrant further disciplinary action.

Assignments/Projects

This 3-credit course requires three hours of classroom or direct faculty instruction and six hours of out-of-class student work each week for approximately 15 weeks. Out-of-class work may include

but is not limited to: required reading, library research, written assignments, and studying for quizzes and exams.

You must complete each individual project/assignment on your own. Any sharing between students will be considered a violation of the Academic Integrity Code and will result at a minimum in a grade of zero for the project/assignment with a possibility for further disciplinary action.

Peer reviews will be factored into the individual grades for group work.

Due Dates Policy

A deadline is like a ticket for a cruise. If you arrive after the scheduled departure time, the ship will have sailed without you and your ticket (homework) will be worthless. Written homework must be handed in within 5 minutes of the scheduled start time for the class period on which it is due. Late homework will not be accepted, and you will receive a zero for that assignment. If you know you will miss class, make arrangements to turn in your work ahead of time.

Grade Appeals Policy

If you believe that the grade you received on an assignment or an exam was in error or unfair, you can appeal to the professor in writing within 7 calendar days after the grades are posted. The appeal should clearly state the reasons why you believe the grade to be unfair or the nature of the error. Overdue appeals will not be considered.

Class Behavior Policy

Disruptive behavior distracts from the ability of others to profit from their in-class experience. Such behavior includes but is not limited to arriving late, leaving early, having side conversations, making unnecessary comments that add no value to the class, surfing the net, and any activities that negatively impact the ability of other students to learn and/or listen in class.

Rude and inappropriate behavior **will not be tolerated**. Since it is my responsibility to provide an environment that is conducive to learning for everyone in the class, I will deduct points from the grade of any student who chooses to repeatedly distract others. In particularly egregious cases, I will have the student permanently removed from the class.

Under no circumstances will students be permitted to spend their class time working on assignments for other classes, checking e-mail, surfing the Web, texting, or engaging in activities not related to the class. Attempts to engage in such behavior will be reflected in lower grades and may lead to removal from the course.

Electronic Devices in Class

Use of computing, communication, or other devices during the class time for purposes other than those required for the class is prohibited and may result in being asked to leave the classroom for the remainder of the class period. This includes the use of laptops, lab computers, phones or other devices for Internet browsing, game playing, reading news, emailing, texting, chatting, IM, Facebook, or other activities not required for the class. **Cellular phones and other communication devices must be silenced AND stored away during class.**

Academic Integrity

As a program that helps to create business and government leaders, the College of Business has an obligation to ensure academic integrity is of the highest standards. Standards of academic integrity will be enforced in this course.

University regulations will be strictly enforced in all cases of academic irregularities, cheating or plagiarism or any variations thereof. Students assume full responsibility for the content and integrity of the academic work they submit. The guiding principle of academic integrity shall be that a student's submitted work, examinations, reports, and projects must be his/her own work.

All UNCC students have the responsibility to be familiar with and to observe the requirements of The **UNCC Code of Student Academic Integrity** (see the Catalog and also <http://integrity.uncc.edu/>). This code forbids cheating, fabrication or falsification of information, multiple submission of academic work, plagiarism of written materials and software projects, abuse of academic materials (such as library books on reserve), and **complicity in academic dishonesty** (helping others to violate the code). Additional examples of violation of the Code include:

- Representing the work of others as your own.
- Using or obtaining unauthorized assistance in any academic work.
- Giving unauthorized assistance to other students.
- Modifying, without instructor approval, an examination, paper, record, or report for the purpose of obtaining additional credit.
- Misrepresenting the content of submitted work.

Students are expected to report cases of academic dishonesty they become aware of to the course instructor who is responsible for dealing with them.

For this course, it is permissible to assist classmates in general discussions about the homework. General advice and interaction are encouraged. Each person, however, must develop his or her own solutions to the assigned homework and laboratory exercises. Students may not "work together" on graded assignments. Such collaboration constitutes cheating, unless it is a group assignment. A student may not use or copy (by any means) another's work (or portions of it) and represent it as his/her own. If you need help on an assignment, contact your instructor or the TA, not other classmates.

Any further specific requirements or permission regarding academic integrity in this course will be stated by the instructor, and are also binding on the students in this course. Students who violate the code can be punished to the extent of being permanently expelled from UNCC and having this fact recorded on their official transcripts. The normal penalty is zero credit on the work involving dishonesty and further substantial reduction of the course grade. In almost all cases, the course grade is reduced to "F."

If you are unclear about whether a particular situation may constitute an honor code violation, you should meet me to discuss the situation. Feel free to discuss the definition of cheating and/or plagiarism with me if you are unclear on these terms or have questions about the acceptability of a particular type of action.

The instructor may ask students to produce identification at examinations and may require students to demonstrate that graded assignments completed outside of class are their own work.

Instructor Absence or Tardiness

If I am late in arriving to class, you must wait a full 20 minutes after the start of class before you may leave without being counted absent, or you must follow any written instructions I may give you about my anticipated tardiness.

Disability Accommodations

Students in this course seeking accommodations to disabilities must first consult with the Office of Disability Services and follow the instructions of that office for obtaining accommodations. If you have a disability that qualifies you for academic accommodations, please provide a letter of accommodation from the Office of Disability Services. For more information regarding accommodations, please contact the Office of Disability Services at 704.687.4355 or stop by their office in 230 Fretwell.

Diversity

The Belk College of Business strives to create an inclusive academic climate in which the dignity of all individuals is respected and maintained. Therefore, we celebrate diversity that includes, but is not limited to ability/disability, age, culture, ethnicity, gender, language, race, religion, sexual orientation, and socio-economic status.

Incomplete Grade Policy

Receiving a grade of incomplete ("I") is not based solely on a student's failure to complete work or as a means of raising his/her grade by doing additional work after the grade report time. An incomplete grade can be given only when a student has a serious medical problem or other extenuating circumstance that legitimately prevents completion of required work by the due date. In any case, for a student to receive an 'I' grade, the student's work to date should be passing, he/she must have completed a significant portion of the course, and the student must provide proper written proof (e.g., a doctor's note) of the extenuating circumstances.

Religious Accommodation for Students Policy

The instructor will observe University Policy 409 (<https://legal.uncc.edu/policies/up-409>) on matters of religious accommodation. Please note that the procedure prescribed by this policy requires a notice to the instructor prior to the census date of the semester (typically the tenth day of instruction).

Course Changes Policy

The instructor reserves the right to make any necessary changes to the course content, schedule, and policies. Changes will be announced in class and will also be posted online.

Tentative Class Schedule

Date	Topic	Assigned Pre-Session Work	Due Dates
Aug 21	Introduction and Course Overview	① Ch. 1	
23	Data Models	① Ch. 2	• Chapter 2 Quiz
28	Data Models	① Ch. 2	
30	The Relational Database Model	① Ch. 3, ② Videos	• Ch2: Pr 5, 7, 8, 9, 14, 16 a, d • Chapter 3 Quiz
Sept 4	The Relational Database Model	① Ch. 3	
6	ER Modeling	① Ch. 4, ① Apx. A, ② Videos, ③ Visio Tutorial	• Ch3: Pr 8, 11, 13, 14, 15, 20, 22 • Chapter 4 Quiz
11	ER Modeling	① Ch. 4, ① Apx. E	• Group Formation
13	ER Modeling	① Ch. 4, ① Apx. E	• Ch4: Q21, Pr 1, 2, 4, 7 • Assignment 1
18	Advanced Data Modeling	① Ch. 5, ② Videos	• Chapter 5 Quiz
20	Exam 1 (Chapters 1-4)		
25	Advanced Data Modeling	① Ch. 5	• Ch5: Pr 1, 2, 3, 5, 7
27	Normalization	① Ch. 6, ② Videos	• Chapter 6 Quiz
Oct 2	Normalization	① Ch. 6	
4	Normalization	① Ch. 6	
9	Student Recess - No Class		
11	Normalization	① Ch. 6	• Ch6: Pr 1, 2, 3, 4 • Ch6 HW 1, 2
16	Normalization	① Ch. 6	• Assign. 2 & Peer Evaluations
18	SQL Lab	① ③ PPT, ② ③ Videos ③ Online Access Tutorials, ③ Online SQL Tutorial,	
23	Exam 2 (Chapters 5, 6; 9 as bonus)		
25	SQL Lab	③	
30	SQL Lab	③	
Nov 1	SQL Lab	③	
6	SQL Lab	③	• Tutor I: 1-5
8	SQL Lab	③	• Tutor I: 6-10
13	SQL Lab	③	• Tutor I: 11-20 • SQL Bonus Assignment
15	SQL Lab & Review	③	
20	Exam 3 (SQL)		
22	Thanksgiving – No Class		
27	Project Presentations		• Project
29	Project Presentations		
Dec 4	Project Presentations		• Project Peer Evaluations
11	Section 001 - Final Exam & Make-Up Exams (8:00am-10:30pm)		
13	Section 002 - Final Exam & Make-Up Exams (8:00am-10:30pm)
