COURSE ASSIGNMENTS

On the first day of class, you will be introduced to the assignments for the course.

Poverty Simulation Reflection Assignment (3 pages maximum, using 1.5 or double spacing)

This assignment is a written reflection of your role experience within a poverty simulation, the actions and decisions that were made, and the impact of those actions/decisions on all stakeholders involved (including the community as a whole).

The paper in four distinct sections including headings for the sections below:

1. Actions/Decisions - Your actions and decisions as a business, organization or family member and why you made the decisions you made.

2. Individual and Family Impact - The impact those actions and decisions had on the individual and nuclear family.

3. Community Impact - The impact those actions and decisions had on the greater community outside the nuclear family (ex. extended family, friends, school, work, neighborhood, city, state, and beyond).

4. Recommendation - Please identify and support one recommendation that MBA students can do to address poverty locally and regionally in the U.S.

Personal SWOT Analysis Assignment (2 page maximum, using double spaced)

This assignment is a written reflection of your strengths, weaknesses, opportunities, and threats based on your Career Leader Assessment results. A SWOT (Strengths—Weaknesses—Opportunities—Threats) analysis is a powerful tool that can help you uncover opportunities that you are well-placed to exploit. Generally speaking, strengths and weaknesses are internal while opportunities and threats are external. By looking at yourself using the SWOT framework, you can start to craft a strategy that helps you distinguish yourself from your competitors, so that you can compete successfully in your career.
Using the results of your 360 degree feedback exercise, identify the following in a two-page paper:

- One of your strengths and one of your opportunities and how you plan to exploit each.
- One of your weaknesses and one of your threats and how you plan to address each.

**Curriculum Plan Assignment**

The intent of this assignment is to help you plan your intended coursework to earn your MBA. We encourage students to plan ahead to ensure that they complete all necessary prerequisites to progress as planned toward graduation.

For this assignment, type up your academic plan for your entire MBA program in a *Word document*. For each semester, include the course number and name you intend to take. If you have outstanding prerequisites, you must build those into your course plan even if you plan to do them online and over the summer. Refer to the examples provided within the attachment for proper formatting. **Make sure you list each semester vertically down the page similar to the examples provided.** It should begin with your first semester in the program.

**ATTENDANCE AND PARTICIPATION**

Students are expected to participate in all the class exercises and discussions. As in any graduate business course, each person’s contribution to the class is an important part of every person’s experience. Given the nature of this course, your participation is absolutely essential. Preparation for class discussion and exercises should reflect your familiarity with the material. Without the proper preparation, the class exercises become virtually meaningless. If you come to class unprepared, it ruins your classmates’ experience. I anticipate that each of you will be prepared for every class and each of you should have no problems meeting my expectations for preparation.
We realize that the demands of traffic, work, family, etc. are powerful, but since this class is based so much on discussion and participation, we expect everyone to be on time for class, and we will be incorporating on-time attendance into your participation grade. In addition, expect to be called upon in class. You will be evaluated on the quality of your contributions and insights. Quality comments possess one or more of the following properties:

- offers a different or unique, but relevant, perspective
- contributes to moving the discussion and analysis forward
- builds on other comments

**ACADEMIC INTEGRITY STATEMENT**

All students are required to read and abide by the Code of Student Academic Integrity. Violations of the Code of Student Academic Integrity, including plagiarism, will result in disciplinary action as provided in the Code. Definitions and examples of plagiarism are set forth in the Code. The Code is available from the Dean of Students Office or online.

Faculty may ask students to produce identification at examinations and may require students to demonstrate that graded assignments completed outside of class are their own work.

Note: All University and College policies regarding absences, make-ups, drops, incompletes, scholastic dishonesty, and all others issues will be strictly observed.

**COMPUTER USE IN THE CLASSROOM**

Students are permitted to use computers during class for note-taking and other class-related work only. Those using computers during class for work not related to that class must leave the classroom for the remainder of the class period.

**STATEMENT OF INCLUSION**

The Belk College of Business strives to create an inclusive academic climate in which the dignity of all individuals is respected and maintained. Therefore, we celebrate diversity that includes, but is not limited to ability/disability, age, culture, ethnicity, gender, language, race, religion, sexual orientation, and socio-economic status.

All students and the instructor are expected to engage with each other respectfully. Unwelcome conduct directed toward another person based upon that person’s actual or perceived race, actual or perceived gender, color, religion, age, national origin, ethnicity, disability, or veteran status, or for any other reason, may constitute a violation of University Policy 406, The Code of Student Responsibility. Any student suspected of engaging in such conduct will be referred to the Office of Student Conduct.
