**WHAT IS FINANCE?**

The Valuation, Management, and Measurement of Risk of Financial Assets. Finance addresses the ways in which individuals and businesses raise, allocate, and use monetary resources over time. In a corporate setting, financial information is used to make decisions about expenses, invest in assets, and increase a firm’s worth in the stock market. Likewise, individuals need guidance in making personal investment decisions to meet their financial goals and an evaluation of the risks involved. Many CEOs and top business executives possess a background in finance.

**FINANCE INDUSTRIES**

**COMMERCIAL BANKING.** Provide banking services to large and small businesses, non-profits, and individuals; Serve as a “financial supermarket” to offer lending packages, underwrite bonds and other securities, and manage cash, treasury, and other types of merchant banking; Employs more people than any other area in finance.

**INVESTMENTS & FINANCIAL PLANNING.** Connect buyers and sellers in financial markets, sell securities, assist investors, and conduct trades; Offer financial advice to help with investments, taxes, and insurance decisions; High salary potential results in strong competition for jobs.

**RISK MANAGEMENT & INSURANCE.** Help individuals and businesses protect themselves from catastrophic losses and anticipate potential problems; Examine risk with regard to property, liability, and health insurance; Most stable jobs in the finance industry.

**REAL ESTATE.** Manage real estate ventures for firms and individuals overseeing areas related to construction, mortgage banking, property management, and real estate development; Real estate serves as collateral for a firm’s borrowing or loans and is important in long-term fiscal planning.

**PREPARING FOR YOUR CAREER...**

**AS CITED BY TOP AREA RECRUITERS, YOU WILL NEED:**

- A knowledge of the financial services industry and financial statements
- The ability to analyze information, extract data, identify valid conclusions, and report outcomes
